Important Information – External Accreditation of the Quality Assurance Unit of the International Hellenic University

The International Hellenic University aims to be a pillar of excellence in education and research by applying educational and learning innovation and by placing an emphasis in internationalization and the utilization of research results.

The International Hellenic University is evolving into a modern, pioneering university, by implementing its internationalization strategy as well as by its direct adaptation of digitalization in education through the integration of innovative educational technologies in the education process and by exploiting the experience gained through the operation of its Postgraduate Programmes of Studies taught exclusively in English.

The University also seeks to become a hub of social, cultural and economic development at regional, national and global level.

In this context, following coordinated actions between the Ministry of Education and Religious Affairs, the Hellenic Authority for Higher Education and the Governing Board of the International Hellenic University the external accreditation of the Internal Quality Assurance System of the University will take place from 24 to 29 May 2021.

The Internal Quality Assurance System is a key mechanism of the quality development policy of the University which defines the principles of its operation and continuous improvement. Moreover, it is a tool for creating a quality culture at the University, while it sets the foundation for the evaluation of the Programmes of Studies of the Departments, which is connected with the accreditation and promotion of Programmes and the professional rights of the graduates. The accreditation of the Internal Quality Assurance System will contribute to the achievement of the quality assurance objectives, which are fully in line with the University strategic plan, as well as the continuous improvement of learning, teaching, research and innovation.

On behalf of the International Hellenic University

Athanassios Kaissis	President
Kalliopi Makridou	Vice President of Academic and Student Affairs
Stamatios Aggelopoulos	Vice President of Research and Life Long Learning
Dimitrios Bandekas	Vice President for Finance, Planning and Development
Ilias Karapantzios	Vice President for Administrative Affairs
