CELEBRATING OUR FIRST YEAR 2025-26 REVIEW

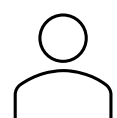

RESEARCH • STRUCTURES • DESIGN

Department of
CIVIL ENGINEERING

We advance knowledge at the intersection of structural engineering and architecture, through research, education and collaboration, to create a resilient and sustainable built environment.

07 HIGHLIGHTS

MOMENTS FROM 2025-26

01. PROTEQ Day-Conference at the International Hellenic University Civil Engineering Department, Serres.

02. Technical visit to the Flyover construction site, Thessaloniki.

08 IMPACT OUR CONTRIBUTION

We foster interdisciplinary collaboration, strengthening research networks across fields and institutions.

We enhance international visibility through peer-reviewed publications and invited contributions.

We integrate research with education through studio and theses projects.

We disseminate knowledge to both academic and professional communities.
