

Dear partners,

We are pleased to share the Erasmus+ Blended Intensive Programmes (BIPs) that will take place at USAMV Bucharest during 2026-2027 academic year:

Faculty of Land Reclamation and Environmental Engineering – Land Surveying Solutions For a Digital World (October 19-24, 2026)

Faculty of Land Reclamation and Environmental Engineering – International School on Advanced Remote Sensing: From Pixels to Knowledge (March 15-20, 2027)

Faculty of Agriculture – Challenges of Agriculture for a Sustainable Future (April 19-23, 2027)

Faculty of Management and Rural Development – Authenticity: an Important Element in the Preservation of Rural Areas (May 10-14, 2027)

Faculty of Horticulture – Climate Change Impact on Global Horticulture – Trends and Challenges (May 17-21, 2027)

Faculty of Animal Productions Engineering and Management – Feeding the Future: Animal Production in the Context of Climate Change (June 21-25, 2027)

Faculty of Biotechnologies – Trends in Biotechnology – Where Biology Meets Technology (July 12-16, 2027)

Faculty of Veterinary Medicine – Current Trends in Zoological and Conservation Medicine (September 13-17, 2027)

We are proud that several of these programmes are already reaching their 2nd, 3rd, or even 4th edition, reflecting the sustained interest of students and staff in these international initiatives.

We warmly invite students and teaching staff from our partner universities to let us know of their interest in participating in these programmes.

For more information, please contact us at **incoming.erasmus@usamv.ro**.

We look forward to welcoming you at USAMV Bucharest!
